

Large Scale Laser Additive Manufacture Processes, overview of the systems and future market impact.

R. Tosi, K. F. Ayarkwa, D. Wimpenny

1- The Manufacturing Technology Centre, Fusion Group, Ansty Business Park, Coventry.

Lasers are playing an important role in the growth of large scale additive manufacturing (AM) market. An overview of platforms and systems used in the additive manufacturing area were investigated to better understand the current situation in the business. Classification and comparison of current and forthcoming systems were also evaluated to understand issues, challenges and future trends in large scale lasers for AM.
